

# Encounter Data Submission and Processing Report Resource Guides

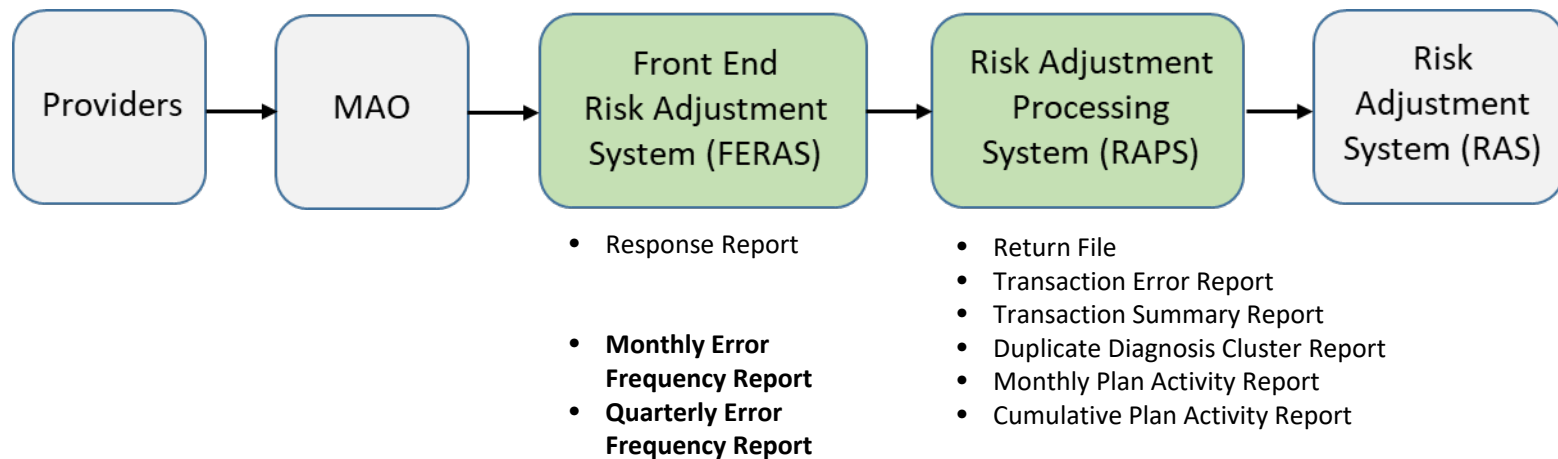

## Risk Adjustment Processing System (RAPS) – Error Frequency Reports

### Report Description

The RAPS Error Frequency Reports (monthly and quarterly) provide a summary of the number of errors generated during the reporting period by error code. The reports are provided in report format. The reports are generated only when a plan has activity in the current month or quarter.

In addition, the reports include the total number of CCC records, total diagnoses, and total accepted and rejected diagnosis clusters.

### Report Generation

## File Layout

Field No.	Field Name	Field Description
1	Report Name	Name of the report.
2	Report Full Name	Full name of the report.
3	Page Number	Page number of the report.
4	Submitter ID	Report is grouped by submitter identification number. A submitter may submit for more than one organization (H-number).
5	Report Run Date	Date CMS generated the report (CCYYMMDD).
6	Plan Number	H-number assigned by CMS; a different report is generated for each MA organization (H-number).
7	MAO Transmit Date	Date the submitter created the transaction.
8	Total CCC Record Counts	The total CCC record counts on the file from the plan
9	Total Diagnosis Counts	The total number of submitted diagnosis clusters on the file from the plan
10	Total Accepted Counts	The count of the diagnosis clusters submitted by the Plan that were accepted during the RAPS editing process.
11	Total Rejected Counts	The count of the diagnosis clusters submitted by the Plan that were rejected during the RAPS editing process.
12	Error Code	The code identifying the error found during the RAPS editing process.
13	Provider Type	The code identifying the type of provider for the diagnosis MAO submitted during the RAPS editing process.
14	Error Code Counts by Provider Type	The summary of errors found by Provider Type during the RAPS editing process.
