Navigating CSSC Operations Website – Instructional Videos

The screenshot shows the CMS website interface. At the top left is the CMS logo. The main navigation bar includes 'Home', 'Archives', 'Contact Us', and 'Email Updates'. Below this is a search bar with the text 'Search for...' and a magnifying glass icon. The primary navigation menu has 'CSSC Operations' (highlighted with a green background), 'Topics', 'Tools', 'Instructional Videos', and 'Job Aids'. A blue arrow points to the 'Instructional Videos' menu item, which has a dropdown menu open showing 'Other Topics' and 'Risk Adjustment Methodology'. The breadcrumb trail reads 'Topics / Instructional Videos / Other Topics'. On the left side, there is a sidebar with 'Instructional Videos' (expanded), 'Other Topics', and 'Risk Adjustment Methodology'. The main content area is titled 'Other Topics' and contains a search box with 'Search' and 'Clear' buttons. Below the search box is a list of instructional videos with their dates and titles:

Report Polling Question 2 Answer

When there is a difference between the filtering status of the MAO-002 and MAO-004 reports, the MAO-002 report is the source of the truth.

A. True

B. False

The correct answer is B.

Note: The MAO-004 report is always the source of the assigned status for risk adjustment.

MAO-002 Report Job Aid

- CMS made updates to the MAO-002 report last Summer. The report provides information on the disposition status and error codes for all records and lines for each file that successfully passes all stages of front-end processing and is passed to EDPS.
- For additional information on the MAO-002 report and the changes made, you can view the job aid on the [CSSC Operations website](#).

Report Polling Question 3

A. True

B. False

Report Polling Question 3 Answer

MAO-002 reports cannot be restored after 60 business days.

A. True

B. False

The correct answer is **A**.

Note: As a reminder, make sure you are downloading the report in a timely manner. After 60 days, the plans/submitters would need to request the reports from their third-party submitter (if applicable) or send a detailed email with justification as to why they need reports restored older than 60 days submission.

Report Polling Question 4

For what month does the MAO-004 report provide information?

- A. The current month's submissions

Report Polling Question 5 Answer

Where can a user find archived Model Output Reports (MOR) and MAO-004 reports?

A. CSSC Operations

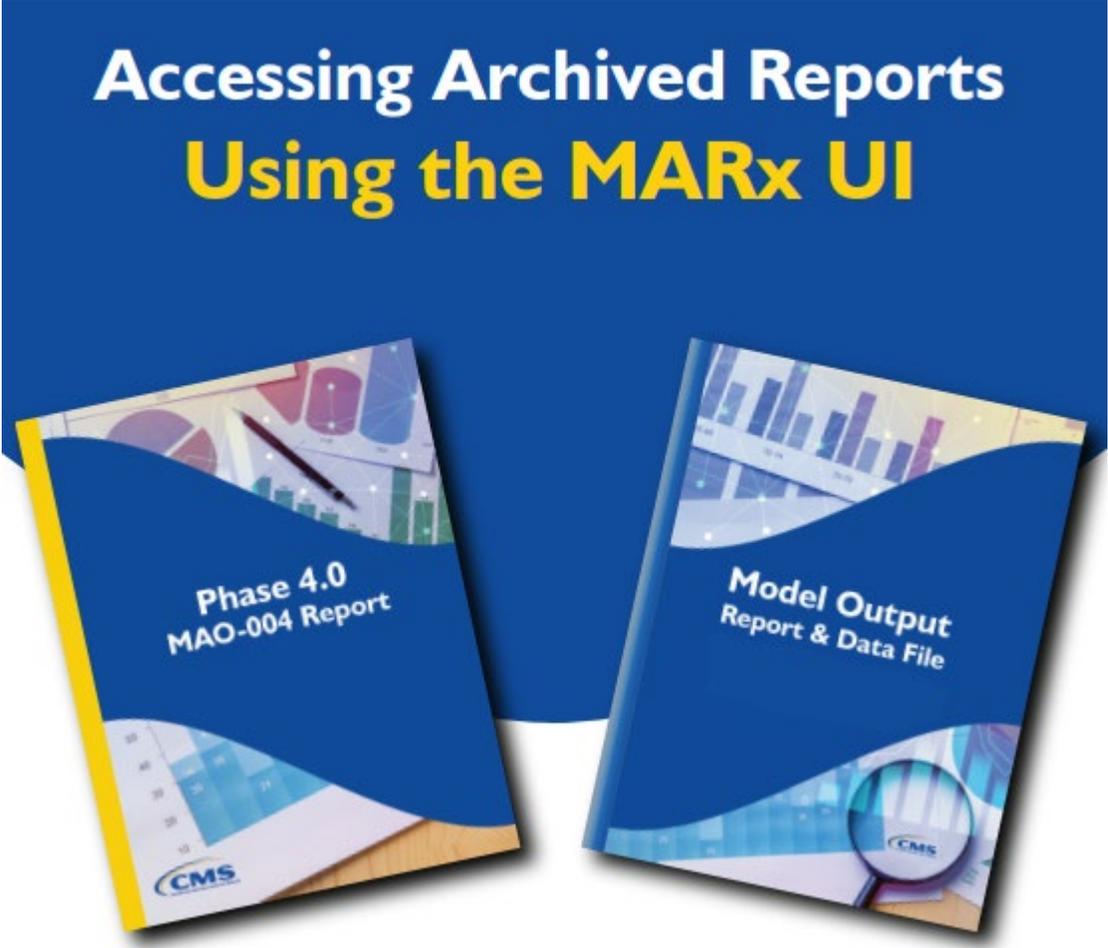

B. MARx UI

C. HPMS

The correct answer is **B**.

Accessing Archived Reports Using the Marx UI

For additional information on archived reports, view this [interactive tutorial](#). Here you will learn how to sign into MARx UI with your active EUA user ID, how to search for archived reports, and how to retrieve the reports you have selected.

Report Polling Question 6

Where can a user access the Report Restore Request tool?

- A. CSSC Operations
- B. MARx UI
- C. HPMS

Report Polling Question 6 Answer

Where can a user access the Report Restore Request tool?

A. CSSC Operations

B. MARx UI

C. HPMS

The correct answer is **A**.

CSSC Tools - Report Restore

- The online Report Restore Request tool allows plans with established connectivity to electronically request the restoration of reports.
- Multiple report restore requests can be submitted at the same time.
- Once the request is submitted, the available reports will be restored within 1-2 business days to the appropriate Submitter/Receiver ID destination based on how you are set up to send and receive information.
- If a report is unavailable, a response email will be sent to the requester explaining why a report is unavailable.

Restore Report Tool

- **Encounter** – TA1, 999, 277CA, MAO-001, MAO-002, Post Screener and Pre-Screen Validation
- **RAPS** – Return File, Transaction Error Report, Duplicate Diagnosis, Transaction summary report, Monthly Report and Monthly Cumulative Report

MAO-004 User Guide

- The MAO-004 is a monthly report informing MAOs and other entities of the risk adjustment eligibility of diagnosis data submitted on accepted Encounter Data Records (EDRs) and Chart Review Records (CRRs).
- CMS recently released the MAO-004 User Guide that provides an overview of the MAO-004 report. The guide includes information regarding filtering rules, designating families, accounting for diagnoses, and finally identifying diagnoses that make it to the risk adjustment model input file for Encounter Data risk adjustment. As we stated before, the MAO-004 report is to be used when reviewing risk adjustment eligibility of diagnoses.
- Use the following link to access the [MAO-004 User Guide](#).

Report Polling Question 7

How are Model Output Report (MOR) files distributed to plans?

- A. MARx mailboxes
- B. MARx UI
- C. HPMS Reports Module

Report Polling Question 7 Answer

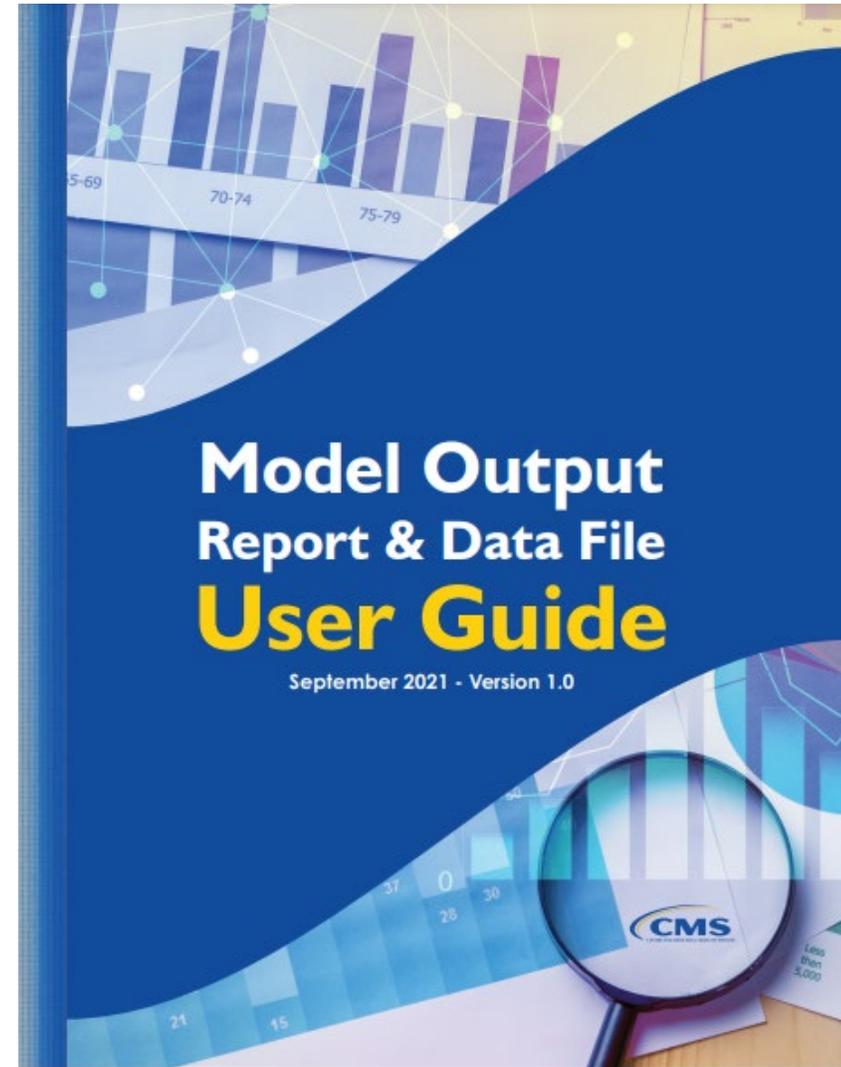

How are Model Output Report (MOR) files distributed to plans?

- A. MARx mailboxes**
- B. MARx UI
- C. HPMS Reports Module

The correct answer is **A**.

Model Output Report & Data File User Guide

- In September 2021, CMS released the risk adjustment [Model Output Report User Guide](#) that is available for plans to view and download on the CSSC Operations website.
- The user guide provides information on accessing the MOR file layouts, examples of records in a MOR, and an explanation of how to use the report to verify the payment HCCs that are used to calculate each beneficiary's Part C and/or Part D risk score.

Report Polling Question 8

Where can plans find updated MAO-004 and MOR report layouts?

- A. Plan Communications User Guide (PCUG)
- B. CMS.gov
- C. MARx UI

Report Polling Question 8 Answer

Where can plans find updated MAO-004 and MOR report layouts?

A. Plan Communications User Guide (PCUG)

B. CMS.gov

C. MARx UI

The correct answer is **A**.

Note: The PCUG was updated in December 2022 and contains information for using the MARx system, an overview of how plans will send data to CMS, as well as descriptions of the specific data files and reports that are exchanged between the plans and CMS.
